Table 7: Summary of responses: What new changes towards net zero are being implemented already? (Outside of your sector)

Category	Academia	Manufacturing	Farmers & veterinary surgeon	Other
-----------------	-----------------	----------------------	---	--------------

	<ul style="list-style-type: none"> • Green energy • Wind and solar energy • Improved air pollution and changes to transport • Electricity • Changes in refrigerator technology • Vehicles • Light Emitting Diodes (LED) lights 	<ul style="list-style-type: none"> • Carbon off-set prices, European Union Emissions Trading Scheme (EU ETS) carbon costs, Future gas prices 	<ul style="list-style-type: none"> • Green energy • Away from fossil based: solar, wind, earth, tides etc. • Solar Photovoltaic technology, coupled to (mainly) battery energy storage
<p>Energy</p>			<ul style="list-style-type: none"> • Robotics and technologies associated with detection
<p>Technology</p>	<ul style="list-style-type: none"> • Water use reduction, storage, and recycling 		<ul style="list-style-type: none"> • Utilisation of waste streams
<p>Waste</p>			

Farming methods

- Nature-based solutions

- Carbon sequestration (agroforestry, tree planting)
- Some living manures that is leguminous co-crops.

Consumer diet

- Move towards less meat

Packaging

- Activities around packaging should be harnessed and circulated as best practice
