

What are the implications of changes in the UK food supply chain on food safety, food authenticity and food regulation?

Themes identified

Household food insecurity

- Ongoing consumer research
- Qualitative case studies
- Joining up with UKRI/Defra Vulnerability Directorate

Labs and sampling

- Identifying issues to be raised as part of incident response

Business compliance

- Identifying issues raised as part of our regulatory response

Crime and substitution

- Working with NFCU Analysts, as well as Defra/Cabinet Office

Consumer behaviour change

- Ongoing consumer research into buying, cooking and eating behaviours
- Ongoing study into handwashing practices
- Qualitative research on consumer understanding of food supply

The world after lockdown

- Feeding into FSA Strategy Unit
- Working with Defra Futures Unit
